

**IGPS Smart Education**  
**[www.indiangreenpeace.com](http://www.indiangreenpeace.com)**

## Vision

“To provide effective and efficient education to all the underprivileged and distressed children across the globe, by implementing the state of the art of the technology”

# Introduction

- An initiative to provide a balanced Education to kids the across globe
- Advanced “IGPS” technology
- Learning Management System with Intelligence
- Rich Content
- Targeted learning methodology
- Rapid pace of implementation
- No dependency on highly qualified and trained teachers

# Academic Plan

University Admission

Entrance Exam preparation

Bridge Program

Grade 10 to 12

Board Exam Preparation

Grade 6 – 9

(Term Valuation and Council Evolution)

Grade 1 to 5

(Term Evaluation)

## Advantages of the Model

Every lesson is divided into a Learning Object Every Learning Object is supported with:

- Rich Dynamic Content
- Visuals
- Streaming Videos
- Exercises
- Quiz
- Class works / Home Works
- Assignments
- Test

## Teacher's approach:

### “Individual student based support” using the “Designated Learning” methodology:

- Objective learning
- LO's support the objective
- Quiz/spot check – helps evaluation
- Basic / advanced materials enhances Individual student support

## Children's practice

- Object based learning – makes it simplified
- Freedom to learn based on individual's unique Strength
- Learning not to restricted to knowledge provided
- Access to unlimited and advanced materials
- “Learning made fun”
- Self Paced Learning

# Potential Users

- Across the Globe:
  - UNICEF / UNESCO
  - All NGOs – providing education
  - Government aided/driven organizations providing education
  - Private Educational Institutions (Groups)

# Current Status - Technical:

## Learning Management System with Intelligence (LMSI):

- Design - Completed
- Architecture - Completed
- Big Data – modeling - Completed
- Development - In progress

## Tablets:

- Design - Completed
- Architecture - Completed
- Modeling - Completed
- Development - In progress
- Manufacturing - Yet to start

## Dynamic Digital Content:

- Curriculum - Digital version available
- Learning Object Modeling - Completed (Samples)
- Development - In progress
